

Who Will Decide the 2020 Election

THE SILENT MAJORITY™

There is a silent revolution occurring in this country, with rising noise levels at a full court press. We are entering a civil war status that may become more violent than it appears. Wait until the 2020 election nears, as the socialists demand radical change, benefits for all, regardless of individual effort. The opposing side, the silent majority, will vote to hold on to what they have gained so far and reject redistribution or confiscation. Don't be fooled, the silent majority is alive and well. They are not as vocal because they are preoccupied with work and family responsibilities. Rationalizations, accusations, innuendos, blame, and sparks will fly in all directions as the demand for entitlements continues.

The first team includes the Collectivists, Progressives, Socialists, Communists, Globalists, professional paid agitators, labor union advocates, corporate interests who benefit from government handouts, welfare recipients, including all government transfer payments, earned-income tax credits, Medicaid, food stamps, and the other 85 federal transfer payment programs, state income tax transfer structures. Also included are Hollywood self-proclaimed leadership elites, and the entrenched government establishment, herein, collectively referred has the "deep state enterprise".

The second team is the productive capitalist class, wage earners and taxpayers sometimes referred to as the "silent majority." This group is witnessing demanded changes to the structure and rewards between the productive class and the parasitic class that is narrowing almost to the point where it will make marginal sense to remain productive. There just may be a point in time where many will jump off the treadmill and decide to exist off the efforts of others.

Voices are now screaming from all sides. Concerned citizens are constantly whipped into a frenzy watching Fox News, CNN, NBC, CBS, or MSNBC depending upon their team loyalty and ideology.

The depth and magnitude of demanded changes are both radical, and geopolitically international and will further alter the socioeconomic and cultural framework of this country from soft socialism into hard socialism. And, yes communism is possible. A significant percent of the public has accepted this new reality, with little or no protest! A portion is accepting the new reality with welcoming open arms. Government transfer payments will gush until the government runs out of other peoples' money. The only answer will be to print more fiat money to keep the masses from rioting. The productive class is or will shortly feel they are at the breaking point.

It is not the intended purpose in this article to generate more arguments between multi-polarized subsets of democrats and republicans. The revolution includes far greater hostile and destructive divisions, that could topple America as we know it. For example, the Alt-Right and the Alt-Left groups are opposing, or possibly not. Each subset has a separate and distinct agenda, no matter how far out, but they form opposing alliances with radically diverse interests in order to further their own agendas'. In many cases, demonstrating for their own causes, expressing opinions and/or practicing their version of free speech, transforms from friendly marches into contentious demonstrations, riots and then into pre-planned thought out criminal activity, including property vandalism, thuggery, arson, extortion, and murder. Winning at any cost is their mantra.

For the hyper-sensitive please take your finger off the delete key, at least for a while. You need to wait for the 2020 election to see how the curtain falls. Rejection or acceptance of soft socialism into hard socialism may very well be the outcome.

The "deep state enterprise" is pursuing the direction of a more powerful centralized government, massively swelling bureaucracies of government employees, increased numbers of public employee labor union members, more regulations, more personal intrusions, more taxation, and of course a much deeper power entrenchment.

Once, the "deep state bureaucracy" swells to a point, it becomes irreversible until the system breaks down, as it always does in any collectivist/socialist experiment. The "deep state bureaucracy" has become a self-feeding destructive cancer.

The power that exists in the working class and taxpayers has been eroded and transferred,

without a whimper, to the deep state enterprise. The power has been transferred and swelled into an institutional monopolistic status, which will control all laws, regulations, production and distribution means, and taxes, accordingly. The productive class has allowed itself to be subjugated and brought under domination and control of a “collectivist institution”, and, of self-serving parasitic forces, referred to here as the deep state enterprise.

The deep state just spent 2 years working to prove, by publishing over half a million articles and spending millions in promoting the “illusionary truth” that Russia conspired to get Trump elected. In his report, the Special Counsel noted that, in completing this investigation, that they employed 19 lawyers who were assisted by a team of approximately 40 FBI agents, intelligence analysts, forensic accountants, and other professional staff. The Special Counsel issued more than 2,800 subpoenas, executed nearly 500 search warrants, obtained more than 230 orders for communication records, issued almost 50 orders authorizing the use of pen registers, made 13 requests to foreign governments for evidence, and interviewed approximately 500 witnesses. All of this resulted in a big fat nothing burger illusion.

In the meantime, the media whipped the public into a frenzy trying to create an “illusionary truth” whereby if people hear something enough, that they will believe it to be true. The media have produced thousands of so-called news segments attempting to sell the illusion, without success. On the other hand, they have proved that the media is not trustworthy to deliver any truths.

Get your popcorn, butter, salt and a front-row seat for the top movie of the century, the 2020 presidential election.
